Profile

Motivated Front-end developer with a passion for implementing and launching innovative projects. Seeking an entry-level software engineer position with a reputable technology-driven firm to contribute my skills and drive for success.

Professional Experience

AllCottenAndLinen, *Frontend Developer* ✉

04/2024 – 06/2024

- Worked as a part-time employee in developing and customizing web pages using html, css in shopify.
- Developed a wedding page <https://www.allcottonandlinen.com/collections/wedding-napkins-bulk> ✉
- Acquired a basic knowledge of SEO while developing web pages.
- Worked with a team and I'm very fortunate to have gained good team management skills and communication.

Projects

Street Cafe app ✉

- Featuring an intuitive **Add to Cart** feature for effortless shopping, streamlining the selection process.
- Ensuring secure **user authentication through email**, the app also offers convenient **order management** and a **dynamic search** feature for a seamless and efficient user experience.

Tech stack: react js, tailwind css, redux toolkit, firebase

YourLook saloon app ✉

- Facilitates **customer reservations** for a user-friendly and efficient booking process, enhancing the overall service experience.
- Enhances user accessibility and security through **Google authentication** while fostering engagement with a modern, interactive review section for valuable **user feedback**.

Tech stack: react js, tailwind css, firebase

Book store management ✉

- Empowers users with a versatile book management system allowing effortless **addition and deletion of books**, providing control over the library or inventory.
- Enhances user experience by efficiently tracking and displaying **purchase history** while simplifying **billing** through a dedicated section that **fetches book details** seamlessly using book IDs.

Tech stack: HTML5, CSS, Javascript, AJAX, PHP, SQL

Awards

First price in SKYNET2.0, an Intra-collage event ✉

Developed a IOT based project for water level prediction in agricultural land based on crop type.
